- (a) its file number; and
- (b) except where paragraph (3) below has effect, a copy of that application duly certified by the authority with which it was filed or otherwise verified to the satisfaction of the comptroller.

(3) Where an application specified in the declaration is an application for a patent under the Act, an international application for a patent which is filed at the Patent Office, or any other application of which a copy is filed pursuant to a declaration of priority under paragraph (1) in respect of another application under the Act,—

- (a) if the application is filed under section 15(4), the applicant shall, at the time of filing the application, file—
 - (i) a request that a copy of the application specified in the declaration be prepared for use in the Patent Office; and
 - (ii) Patents Form 23/77 requesting the comptroller to certify the same; or
- (b) if the application is filed otherwise than under section 15(4), the applicant shall file that request and that form in compliance with any request made by the comptroller.

(4) Where the application in suit is an application for a European patent (UK) which, by virtue of section 81, is to be treated as an application for a patent under the Act, the requirements of paragraphs (1) and (2) above shall be treated as having been complied with to the extent that the requirements of rule 38(1) to (3) of the Implementing Regulations to the European Patent Convention have been fulfilled.

corresponding to the original text shall be filed within the period of twenty-one months after the declared priority date.

(7) In the case of an international application for a patent (UK), the application of paragraph (6) above shall be subject to the provisions of rule 85(3)(c) and (d).

7.—(1) A reference under section 8(1)(a) or 12(1)(a) shall be made on Patents Form 2/77 and shall be accompanied by a copy thereof and a statement in duplicate setting out fully the nature of the question, the facts upon which the person making the reference relies and the order or other relief which he is seeking.

(2) The comptroller shall send a copy of the reference and statement to—

- (a) any person (other than the person referred to in paragraph (1) above) alleged in the reference to be entitled to be granted a patent for the invention;
- (b) any person, not being a party to the reference, who is shown in the register as having a right in or under the patent application;

(6) Any person entitled to receive a copy of the evidence filed under paragraph (5) above may, within the period of two months beginning on the date when the copy is sent to him or, if no such evidence is filed, within two months of the expiration of the period within which it might have been filed, file evidence in support of his case and shall send a copy of the evidence so filed to each of the other parties listed in paragraph (4) above.

(7) Any person who receives a copy of the evidence filed under paragraph (6) above may, within the period of two months of the date when the copy is sent to him, file further evidence confined to matters strictly in reply and shall as appropriate send a copy of the evidence so filed to the parties listed in paragraph (4) above.

(8) No further evidence shall be filed by any party except by leave or direction of the comptroller.

(9) The comptroller may give such directions as he may think fit with regard to the subsequent procedure.

INVENTORS

Mention of inventor under section 13

14.—(1) An application to the comptroller under section 13(1) or (3) by any person who alleges—

- (a) that he ought to have been mentioned as the inventor or joint inventor of an invention in any patent granted or published application for a patent for the invention; or
- (b) that any person mentioned as sole or joint inventor in any patent granted or published application for a patent for the invention ought not to have been so mentioned,

shall be made on Patents Form 2/77 and shall be accompanied by a copy thereof and a statement in duplicate setting out fully the facts relied upon.

(2) The comptroller shall send a copy of any such application and statement to—

- (a) every person registered as proprietor of, or applicant for, the patent;
- (b) every person who has been identified in the patent application or a statement filed under section 13(2)(a) as being, or being believed to be, the inventor or joint inventor of the invention; and
- (c) every other person whose interests the comptroller considers may be affected by the application;

other than the applicant under section 13(1) or (3) and any person who has consented in writing to the application.

(3) Any recipient of such a copy of an application and statement who wishes to oppose the application shall, within the period of two months beginning on the date when the copies are sent to him, file a counter-statement in duplicate setting out fully the grounds of his objection and the comptroller shall send a copy of the counter-statement to each of the persons described in this rule other than any person who is party to the counter-statement.

(4) The comptroller may give such directions as he may think fit with regard to the subsequent procedure.

(5) The document prescribed for the purposes of section 13(1) shall be an addendum or erratum.

Procedure where applicant is not the inventor or sole inventor

15.—(1) Subject to the provisions of rules 26, 81(3), 82(3), 85(7)(a) and 85(7A)(a), if the applicant or applicants are not the inventor or inventors, a statement under section 13(2) identifying the inventor or inventors and, where required by section 13(2)(b), the derivation of the right of the applicant or applicants to be granted the patent shall be made on Patents Form 7/77, within the period of sixteen months after the declared priority date or, where there is no declared priority date, the date of filing the application.

(2) Where the applicant is not the sole inventor or the applicants are not the joint inventors of the invention the subject of the application and the application does not contain a declared priority date which relates to an earlier relevant application as defined in section 5(5)(b), a sufficient number of copies of Patents Form 7/77 shall be filed by the applicant or applicants within the said period to enable the comptroller to send one to each inventor who is not one of the applicants.

(3) Where the application is an application for a European patent (UK) which by virtue of section 81 is to be treated as an application for a patent under the Act, the requirements of paragraphs (1) and (2) above shall be treated as having been complied with to the extent that the requirements of rule 17 of the Implementing Regulations to the European Patent Convention have been fulfilled.

(4) Where the application is an international application for a patent (UK), the requirements of paragraphs (1) and (2) above shall be treated as having been complied with if the provisions of rules 4.1(a)(v) and 4.6 of the Regulations made under the Patent Co-operation Treaty have been complied with, whether or not there was any requirement that they be complied with.

APPLICATIONS FOR PATENTS

Applications for the grant of patents under sections 14 and 15

16.—(1) A request for the grant of a patent shall be made on Patents Form 1/77.

(2) The specification contained in an application for a patent made under section 14 shall state the title of the invention and continue with the description and the claim or claims and drawings, if any, in that order.

(3) The title shall be short and indicate the matter to which the invention relates.

(4) The description shall include a list briefly describing the figures in the drawings, if any.

Micro-organisms

17. Schedule 2 shall have effect in relation to certain applications for patents, and patents, for inventions which require for their performance the use of micro-organisms.

Drawings

18.—(1) Drawings forming part of an application for a patent made under section 14 shall be on sheets the usable surface area of which shall not exceed 26.2 cm by 17 cm. The sheets shall not contain frames round the usable or used surface. The minimum margins shall be as follows—

top	2.5 cm
left side	2.5 cm
right side	1.5 cm
bottom	1.0 cm

(2) Drawings shall be executed as follows—

- (a) without colouring in durable, black, sufficiently dense and dark, uniformly thick and well-defined lines and strokes to permit satisfactory reproduction;
- (b) cross-sections shall be indicated by hatching which does not impede the clear reading of the reference signs and leading lines;
- (c) the scale of the drawings and the distinctness of their graphical execution shall be such that a photographic reproduction with a linear reduction in size to two-thirds would enable all details to be distinguished without difficulty. If, as an exception, the scale is given on a drawing, it shall be represented graphically;
- (d) all numbers, letters, and reference signs, appearing on the drawings shall be simple and clear and brackets, circles and inverted commas shall not be used in association with numbers and letters;

- (e) elements of the same figure shall be in proportion to each other, unless a difference in proportion is indispensable for the clarity of the figure;
 - (f) the height of the numbers and letters shall not be less than 0.32 cm and for the lettering of drawings, the Latin and, where customary, the Greek alphabets shall be used;
 - (g) the same sheet of drawings may contain several figures. Where figures drawn on two or more sheets are intended to form one whole figure, the figures on the several sheets shall be so arranged that the whole figure can be assembled without concealing any part of the partial figures. The different figures shall be arranged without wasting space, clearly separated from one another. The different figures shall be numbered consecutively in arabic numerals, independently of the numbering of the sheets;
 - (h) reference signs not mentioned in the description or claims shall not appear in the drawings, and vice versa. The same features, when denoted by reference signs, shall, throughout the application, be denoted by the same signs;
 - (i) the drawings shall not contain textual matter, except, when required for the understanding of the drawings, a single word or words such as “water”, “steam”, “open”, “closed”, “section on AA”, and, in the case of electric circuits and block schematic or flow sheet diagrams, a few short catchwords; and
 - (j) the sheets of the drawings shall be numbered in accordance with rule 20(9).
- (3) Flow sheets and diagrams shall be considered to be drawings for the purposes of these Rules.

The abstract

19.—(1) The abstract shall commence with a title for the invention.

(2) The abstract shall contain a concise summary of the matter contained in the specification. The summary shall indicate the technical field to which the invention belongs and be drafted in a way which allows a clear understanding of the technical problem to which the invention relates, the gist of the solution to that problem through the invention and the principal use or uses of the invention. Where appropriate, the abstract shall also contain the chemical formula which, among those contained in the specification, best characterises the invention. It shall not contain statements on the alleged merits or value of the invention or on its speculative application.

(3) The abstract shall normally not contain more than 150 words.

(4) If the specification contains any drawings, the applicant shall indicate on the abstract the figure or, exceptionally, the figures of the drawings which he suggests should accompany the abstract when published. The comptroller may decide to publish one or more other figures if he considers that they better characterise the invention. Each main feature mentioned in the abstract and illustrated by a drawing shall be followed by the reference sign used in that drawing.

(5) The abstract shall be so drafted that it constitutes an efficient instrument for the purposes of searching in the particular technical field, in particular by making it possible to assess whether there is a need to consult the specification itself.

Size and presentation of documents

20.—(1) All documents (including drawings) making up an application for a patent or replacing such documents shall be in the English language.

(2) The specification, abstract and any replacement sheet thereof shall be filed in duplicate.

(3) All documents referred to in paragraph (1) above shall be so presented as to permit of direct reproduction by photography, electrostatic processes, photo offset and micro-filming, in an unlimited number of copies. All sheets shall be free from cracks, creases and folds. Only one side of the sheet shall be used, except in the case of a request for the grant of a patent.

(4) All documents referred to in paragraph (1) above shall be on A4 paper (29.7 cm × 21 cm) which shall be pliable, strong, white, smooth, matt and durable. Each sheet (other than drawings) shall be used with its short sides at the top and bottom (upright position).

(5) The request for the grant of a patent and the description, claims, drawings and abstract shall each commence on a new sheet. The sheets shall be connected in such a way that they can easily be turned over, separated and joined together again.

(6) Subject to rule 18(1), the minimum margins shall be as follows:

top	2.0 cm
left side	2.5 cm
right side	2.0 cm
bottom	2.0 cm

(7) The margins of the documents making up the application and of any replacement documents must be completely blank.

(8) In the application, except in the drawings—

(a) all sheets in the request shall be numbered consecutively; and

(b) all other sheets shall be numbered consecutively as a separate series,

and all such numbering shall be in arabic numerals placed at the top of the sheet, in the middle, but not in the top margin.

(9) All sheets of drawings contained in the application shall be numbered consecutively as a separate series. Such numbering shall be in arabic numerals placed at the top of the sheet, in the middle, but not in the top margin.

(10) Every document (other than drawings) referred to in paragraph (1) above shall be typed or printed in a dark, indelible colour in at least 1½ line spacing and in characters of which the capital letters are not less than 0.21 cm high:

Provided that Patents Form 1/77 may be completed in writing, and that graphic symbols and characters and chemical and mathematical formulae may be written or drawn, in a dark indelible colour.

(11) The request for the grant of a patent, the description, the claims and the abstract shall not contain drawings. The description, the claims and the abstract may contain chemical or mathematical formulae. The description and the abstract may contain tables. The claims may contain tables only if their subject-matter makes the use of tables desirable.

(12) In all documents referred to in paragraph (1) above units of weight and measures shall be expressed in terms of the metric system. If a different system is used they shall also be expressed in terms of the metric system. Temperatures shall be expressed in degrees Celsius. For the other physical values, the units recognised in international practice shall be used, for mathematical formulae the symbols in general use, and for chemical formulae the symbols, atomic weights and molecular formulae in general use shall be employed. In general, use should be made of technical terms, signs and symbols generally accepted in the field in question.

(13) If a formula or symbol is used in the specification a copy thereof, prepared in the same manner as drawings, shall be furnished if the comptroller so directs.

(14) The terminology and the signs shall be consistent throughout the application.

(15) All documents referred to in paragraph (1) above shall be reasonably free from deletions and other alterations, overwritings and interlineations and shall, in any event, be legible.

Form of statements, counter-statements and evidence

21. Any statement, counter-statement or evidence filed shall, unless the comptroller otherwise directs, comply with the requirements of rule 20(1) and (4) and, except that both sides of the sheet may be used in the case of statutory declarations and affidavits, with the requirements of rule 20(3).

Unity of invention

22.—(1) Without prejudice to the generality of section 14(5)(d), where two or more inventions are claimed (whether in a single claim or in separate claims), and there exists between or among those inventions a technical relationship which involves one or more of the same or corresponding technical features, then those inventions shall be treated as so linked as to form a single inventive concept for the purposes of the Act.

(2) In this rule, “special technical features” means those technical features which define a contribution which each of the claimed inventions, considered as a whole, makes over the prior art.

Late filed drawings

23. (9) An international application for a patent (UK) shall not be treated as withdrawn under the Act if it, or the designation of the United Kingdom in it, is deemed to be withdrawn under the Patent Co-operation Treaty where, in the same or comparable circumstances in relation to an application under the Act (other than an international application)—

- (a) the comptroller could have directed that an irregularity be rectified under rule 100, or could have granted a dispensation for the doing of any act or thing, or the production or filing of

any document under rule 101, or could have granted an extension of time under rule 110, or could have extended the time or determined the times or periods under rule 111; and

- (b) the comptroller determines that the application would not have been treated as withdrawn under the Act.

- (a) the comptroller may amend any document received by the Patent Office from the receiving office or the International Bureau and alter any period or time which is specified in the Act or these Rules upon such terms (including payment of any appropriate prescribed fee) as he may direct; and
- (b) the fee prescribed under section 89A(3) shall not be payable.

(11) Where the applicant satisfies the comptroller that,—

- (a) because of an error made by the receiving office, an international application for a patent (UK) has been accorded a date of filing which is not correct; or
- (b) the declaration made under Article 8(1) of the Patent Co-operation Treaty has been cancelled or corrected by the receiving office or the International Bureau because of an error made by the office or the Bureau,

the comptroller may amend any document received by the Patent Office from the receiving office or the International Bureau or alter any period or time which is specified in the Act or these Rules as if the error were an error on the part of the Patent Office.

(12) Where—

- (a) an international application for a patent (UK) purports to designate the United Kingdom; and
- (b) the applicant alleges that he has been refused a filing date under the said Treaty on account of an error or omission in any institution having functions under the said Treaty,

the applicant may apply in writing to the comptroller for the international application to be treated as an application under the Act by filing a statement of the facts upon which he relies accompanied by the prescribed fee, if any; and the comptroller may amend any document filed by the applicant and alter any period or time which is specified in the Act or these Rules upon such terms as he may direct.

(2) After such an application as is mentioned in paragraph (1) above has been made, an ex parte application for a further order or directions in relation to the same matter may be made to the comptroller in writing.

Comptroller's discretionary powers

88.—(1) Before exercising any discretionary power vested in him by or under the Act adversely to any party to a proceeding before him, the comptroller shall, unless the party concerned consents to shorter notice, give that party at least fourteen days' notice of the time when he may be heard.

(2) If, in *inter partes* proceedings, a party desires to be heard, he shall give notice in writing to the comptroller, and the comptroller may refuse to hear any party who has not given such notice before the day appointed for the hearing.

(3) In *inter partes* proceedings, any party who intends to refer at the hearing to any document (other than a report of a decision of any court or of the comptroller) not already mentioned in the proceedings shall, unless the comptroller consents and the other party agrees, give at least fourteen days' notice of his intention with details of, or a copy of, the document to the comptroller and the other party.

(4) After hearing the party or parties desiring to be heard or, if no party so desires, without a hearing, the comptroller shall decide the matter and shall notify all parties of his decision and, if any party so desires, shall give his reasons for the decision.

Admittance to hearings before comptroller

89.—(1) Subject to the following provisions of this rule, where a hearing before the comptroller of any dispute between two or more parties relating to any matter in connection with a patent or an application for a patent takes place after the publication of the application under section 16, the hearing of the dispute shall be in public.

(2) After consulting those parties to the dispute who appear in person or are represented at a hearing to which paragraph (1) above applies, the comptroller may direct that the hearing be not held in public, but without prejudice to paragraph (3) below.

(3) A member of the Council on Tribunals or of its Scottish Committee may, in his capacity as such, attend such a hearing or any other hearing before the comptroller under these Rules.

(2) Where such a request relates to a specification, no correction shall be made therein unless the correction is obvious in the sense that it is immediately evident that nothing else would have been intended than what is offered as the correction.

(3) Where the comptroller requires notice of the proposed correction to be advertised, he shall advertise the request and the nature of the proposed correction in the Journal.

(4) At any time within two months after the date of the advertisement, any person may give notice to the comptroller of opposition to the request on Patents Form 15/77.

(5) Such notice shall be accompanied by a copy thereof and be supported by a statement in duplicate setting out fully the facts on which the opponent relies and the relief which he seeks.

(6) The comptroller shall send a copy of the notice and the statement to the person making the request who, if he desires to proceed with the request, shall within the period of two months beginning on the date when the copies are sent to him, file a counter-statement in duplicate setting out fully the grounds on which he contests the opposition and the comptroller shall send a copy of the counter-statement to the opponent.

(7) The comptroller may give such directions as he may think fit with regard to the subsequent procedure.

 - (i) where one party resides in Scotland and all parties to the proceedings agree to the hearing or hearings, if any, being held there; or

- (ii) where all the parties to the proceedings reside in Scotland and one of them requests the hearing or hearings, if any, to be held there and the comptroller is satisfied that it would not be unduly burdensome to any other party to hold the hearing or hearings there; and
 - (b) the comptroller may direct that the hearing or hearings, if any, be held in Scotland (even where none of the parties resides in Scotland) where one party to the proceedings requests it and he is satisfied that the balance of convenience is in favour of holding the hearing or hearings there.
- (2) A request under paragraph (1) above shall be made in duplicate and shall—
 - (a) be in writing;
 - (b) be accompanied by a statement of facts in duplicate setting out the grounds upon which the request is made; and
 - (c) be filed at any time before the comptroller issues notification to the parties that the hearing or hearings have been appointed, or, with the leave of the comptroller, within fourteen days thereafter.
- (3) The comptroller, upon a request being made under paragraph (1) above, shall send a copy of the request and the statement to any party to the proceedings who has not indicated that he consents to the request.
- (4) Any party or parties to the proceedings having objection to a request made under paragraph (1) above may, within one month after notification of the request is sent to him, file at the Patent Office a counter-statement in duplicate setting out the grounds upon which objection is taken, and the comptroller shall send a copy of the counter-statement to any person who is not party to it.
- (5) The comptroller may give such directions as he may think fit with regard to the subsequent procedure.
- (6) No appeal shall lie from any decision of the comptroller under this rule.

Appointment of advisers

109. The comptroller may appoint an adviser to assist him in any proceeding before the comptroller and shall settle the question or instructions to be submitted or given to such adviser.

Alteration of time limits

110.—(1) The times or periods prescribed by these Rules for doing any act or taking any proceeding thereunder, other than times or periods prescribed in the provisions mentioned in paragraph (2) below, and subject to paragraphs (3) and (4) below, may be extended by the comptroller if he thinks fit, upon such notice to the parties and upon such terms as he may direct; and such extension may be granted notwithstanding that the time or period for doing such act or taking such proceeding has expired.

(2) The provisions referred to in paragraph (1) above are rules 6(1), 26 (so far as it relates to rule 6(1)), 39(1) and (2), 40(2), 41(1), 43(2), 59(2), 64(1), 65(1), 71(1), 78(1), 81(1), 82(1) and 91(4) and paragraph 4(2) of Schedule 2.

(3) A time or period prescribed in rules 6(2) and (6) (including the period therein prescribed as substituted by rule 85(3)(c) and (d)), 15(1), 23, 25(2) and (3) (except so far as it relates to the filing of claims for the purposes of the application and filing of the abstract), 26 (except so far as it relates to rule 6(1)), 33(2), (3) and (5), 34, 41(4), 81(3) and (4), 82(3) and (4), 83(3) and 85(1), (5A), (7) and (7A), paragraph 1(3) of Schedule 2 and paragraph 2 of Schedule 4 shall, if not previously extended, be extended for one month upon filing Patents Form 52/77 before the end of that month; and where

in any proceedings more than one such time or period expires on the same day (but not otherwise), those times or periods may be extended upon the filing of a single such form.

(4) Without prejudice to paragraph (3) above, a time or period prescribed in the rules referred to in that paragraph may, upon request made on Patents Form 52/77, be extended or further extended if the comptroller thinks fit, whether or not the time or period (including any extension obtained under paragraph (3) above) has expired; and the comptroller may allow an extension, or further extension, under this paragraph on such terms as he may direct and subject, unless he otherwise directs, to the furnishing of a statutory declaration or affidavit verifying the grounds for the request.

(5) A single request may be made under paragraph (4) above for the extension of more than one time or period in the same proceedings if the extensions are to be made to a common date (but not otherwise).

(6) If on consideration of a request under paragraph (4) above the comptroller decides that the extension requested (or, in a case falling within paragraph (5) above, any or all of the extensions requested) may be granted he shall notify the applicant accordingly and invite him, within two months after the notification is sent to him, to file Patents Form 53/77, upon receipt of which the comptroller shall effect the extension or extensions in accordance with the decision.

(7) Where the period within which any party to a dispute may file evidence under these Rules is to begin after the expiry of any period in which any other party may file evidence under these Rules and that other party notifies the comptroller that he does not wish to file any, or any further, evidence, the comptroller may direct that the period within which the first-mentioned party may file evidence shall begin on such date as may be specified in the direction and shall notify all parties to the dispute of that date.

Calculation of times or periods

111.—(1) Where, on any day, there is—

- (a) a general interruption or subsequent dislocation in the postal services of the United Kingdom; or
- (b) an event or circumstances causing an interruption in the normal operation of the Patent Office,

the comptroller may certify the day as being one on which there is an “interruption” and, where any period of time specified in the Act or these Rules for the giving, making or filing of any notice, application or other document expires on a day so certified the period shall be extended to the first day next following (not being an excluded day) which is not so certified.

(2) Any certificate of the comptroller given pursuant to this rule shall be posted in the Patent Office.

(3) Where, in or in connection with an application for a patent (“the application in suit”), it is desired to make a declaration specifying for the purposes of section 5(2) an earlier relevant application and the period of twelve months immediately following the date of filing the earlier relevant application ends on a day which is an excluded day for the purposes of section 120, such period shall, if the declaration is made on the first following day on which the Patent Office is open for the transaction of such business, be altered so as to include both the day of filing of the earlier relevant application and the day on which the declaration is made in or in connection with the application in suit.

(4) Where it is desired to make such a declaration and the said period of twelve months immediately following the date of filing the earlier relevant application ends on a day certified under paragraph (1) above as being one on which there is an interruption, the period shall, if the declaration is made on the first day following the end of the interruption, be altered so as to include both the day of filing of the earlier relevant application and the day on which the declaration is made in or in connection with the application in suit.

(5) Where an application for a patent is filed upon the day immediately following a day which is certified under paragraph (1) above as being one on which there is an interruption or which is an excluded day for the purposes of section 120, the period of six months specified in section 2(4) shall be computed from the day following the next preceding day which is neither so certified nor so excluded.

(6) If in any particular case the comptroller is satisfied that the failure to give, make or file any notice, application or other document within—

- (a) any period of time specified in the Act or these Rules for such giving, making or filing;
- (b) the period of six months following a disclosure of matter constituting an invention falling within paragraph (a), (b) or (c) of section 2(4); or
- (c) the period of twelve months referred to in paragraph (3) above,

was wholly or mainly attributable to a failure or undue delay in the postal services in the United Kingdom, the comptroller may, if he thinks fit—

- (i) extend the period of time for the giving, making or filing so that it ends on the day of the receipt by the addressee of the notice, application or other document (or, if the day of such receipt is an excluded day, on the first following day which is not an excluded day);
- (ii) determine that the period of six months referred to in subparagraph (b) above shall be altered so that it begins on the day of the disclosure and ends on the day of receipt by the Patent Office of the application for the patent (or, if the day of such receipt is an excluded day, on the first following day which is not an excluded day); or
- (iii) determine that the period of twelve months referred to in paragraph (3) above shall be altered so as to include both the day of filing of the earlier relevant application and the day on which the declaration specifying that application is received by the Patent Office (or, if the day of such receipt is an excluded day, the first following day which is not an excluded day),

as the case may be, in each case upon such notice to other parties and upon such terms as he may direct.

Copies of documents

112. Where a document, other than a published United Kingdom specification or application, is referred to in any reference, notice, statement, counter-statement or evidence required by the Act or these Rules to be filed at the Patent Office or sent to the comptroller, copies of the document shall be furnished to the Patent Office within the same period as the reference, notice, statement, counter-statement or evidence in which they are first referred to may be filed and in the following number—

- (a) where the document in which they were so referred to had to be filed or sent in duplicate or the original document had to be accompanied by a copy thereof, in duplicate; and
- (b) in all other cases, one:

Provided that where a copy of any evidence is required by the Act or these Rules to be sent direct to any person, a copy of any document referred to in that document shall also be sent direct to that person.

Translations

113.—(1) Subject to the provisions of rules 6, 40, 81, 82 and 85, paragraph (3) below and paragraph 5 of Schedule 4, where any document or part of a document which is in a language other than English is filed at the Patent Office or sent to the comptroller in pursuance of the Act or these Rules, it shall be accompanied by a translation into English of the document or that part, verified to the satisfaction of the comptroller as corresponding to the original text. Where the document is or forms part of an application for a patent, the Patent Office shall not, in the absence of such a

translation, take any further action in relation to that document, unless the comptroller otherwise directs.

(2) Where more than one copy of that document is required to be so filed or sent, a corresponding number of copies of the translation shall accompany it.

(3) Where any document which, or any part of which, is in a language other than English—

(a) is referred to in a search report drawn up under Article 18 of the Patent Co-operation Treaty; or

(b) is cited in the statement contained in an international preliminary examination report established under Article 35 of that Treaty,

and any such report is filed at the Patent Office in relation to the provisions of section 89A, a translation into English of that document or part verified to the satisfaction of the comptroller as corresponding to the original text thereof shall, if the comptroller so directs, be filed within two months of the date on which such direction is given.

(4) Where proceedings are instituted before the comptroller in relation to a European patent (UK) the specification of which was published in French or German, the party who institutes those proceedings shall furnish to the Patent Office a translation into English of the specification of the patent verified to the satisfaction of the comptroller as corresponding to the original text thereof unless—

(a) such a translation has already been filed under section 77(6); or

(b) the comptroller determines that it is not necessary.

(5) If, in the course of such proceedings, leave is given for the amendment of the specification of the European patent (UK), the party given leave to amend shall furnish to the Patent Office a translation of the amendment into the language in which the specification of the patent was published, verified to the satisfaction of the comptroller as corresponding to the original text thereof.

(6) The comptroller may refuse to accept any translation which is in his opinion inaccurate and thereupon another translation of the document in question verified as aforesaid shall be furnished, together with the appropriate number of copies thereof.

Publication and sale of documents

114. — The comptroller may arrange for the publication and sale of copies of specifications and other documents in the Patent Office and of indexes to, and abridgements or abstracts of, such documents.

The Journal

115.—(1) The comptroller shall publish a journal containing particulars of applications for patents and other proceedings under the Act and any other information that he may deem to be generally useful or important.

(2) The journal shall be entitled “The Official Journal (Patents)”.

(3) Unless the comptroller otherwise directs, the Journal shall be published weekly.

Reports of cases

The comptroller shall from time to time publish reports of—

(a) cases relating to patents, trade marks, registered designs and design right decided by him; and

- (b) cases relating to patents (whether under the Act or otherwise), trade marks, registered designs, copyright and design right decided by any court or body (whether in the United Kingdom or elsewhere),

being cases which he considers to be generally useful or important.

117.—(1) Where the Patent Office is the competent receiving Office under the Patent Cooperation Treaty, an international application shall be filed at it in English in triplicate.

(2) If less than three copies of the international application are so filed, upon preparation by the Patent Office of the number of copies of it required to bring the total to three, the applicant shall on demand pay to the Patent Office the appropriate charge.

Transmittal and late payment fees

118.—(1) Subject to paragraph (3) below, payment of a prescribed transmittal fee referred to in Rule 14.1 of the Regulations under the Patent Cooperation Treaty shall be made to the Patent Office under the said Treaty not later than one month after the date on which the international application to which it relates is filed at the Patent Office as the competent receiving Office under the said Treaty.

Notes

- a) *If you need help to fill in this form or you have any questions, please contact the Patent Office on 0645 500505.*
- b) *Write your answers in capital letters using black ink or you may type them.*
- c) *Do not use this form:*
 - *to request to inspect a file at the Patent Office in Newport or London, (but please check with the Patent Office by telephone or letter in advance because it may take several days to make a file available in the Public Search Rooms); or*
 - *to request certified copies of European patent applications, (you can only get these from the European Patent Office).*
- d) *Do not ask for uncertified and certified copies on a single form. For certified copies you should also use a separate form for each patent application or patent.*
- e) *For uncertified copies you can use one form to get copies relating to more than one patent application or patent.*
- f) *At part 4, state whether you want a copy of:*
 - i) *a register entry with renewals details;*
 - ii) *an application as filed;*
 - iii) *a patent as granted, including register and renewal details; or*
 - iv) *something else (give details)*

Option (i) is normally used to check whether a patent is in force and whether any assignments or licences have been registered. Option (ii) is normally used to get certified copies to support a priority claim in another country. Option (iii) is normally used to get a certified copy for 'registering' the patent in certain countries where that can be done.
- g) *At part 6 state whether you want copies to be "certified by rubber stamp" or "certified with signature and seal". Sealed copies are usually required if the copy is to be filed at the court or at a Patent Office abroad. Rubber stamp copies are sufficient if certified copies are for use in the UK Patent Office. If part 6 is left blank uncertified copies will be supplied.*
- h) *Any written queries about this request for copies will be made to the address given at part 7, and any bill for copying charges will also be sent to that address.*
- i) *If you do not want the copies sent to you, please tell us at part 8 where to send them, for example, "send to the International Unit as priority document for PCT application . . ." or "place on file of application . . . as priority document", or give an address in the UK. If part 8 is left blank, copies will be sent to the address given at part 7.*
- j) *You do not have to list the countries concerned but this information helps with the preparation of appropriate certificates.*
- k) *If there is not enough space for all the relevant details on any part of this form, please continue on a separate sheet of paper and write "see continuation sheet" in the relevant part(s) of the form. Any continuation sheets should be attached to this form.*
- l) *Once you have filled in the form you must remember to sign and date it.*

SCHEDULE 2

Rule 17

MICRO-ORGANISMS

Applications

1.—(1) The specification of an application for a patent, or of a patent, for an invention which requires for its performance the use of a micro-organism—

- (a) which is not available to the public at the date of filing the application; and
- (b) which cannot be described in the specification in such a manner as to enable the invention to be performed by a person skilled in the art,

shall, in relation to the micro-organism itself, be treated for the purposes of the Act as disclosing the invention in such a manner only if one of the conditions set out in subparagraph (2) below is satisfied.

(2) The conditions referred to in subparagraph (1) above are—

- (a) a condition that,—
 - (i) not later than the date of filing of the application, a culture of the micro-organism has been deposited in a depositary institution which is able to furnish a sample of the micro-organism; and
 - (ii) the name of the depositary institution, the date when the culture was deposited and the accession number of the deposit are given in the specification of the application; and
- (b) a condition, in the case of a European patent (UK), an application for a European patent (UK) or an international application for a patent (UK) which is treated, by virtue of section 77, 81 or 89 as a patent under the Act, or, as the case may be, an application for a patent under the Act, that the corresponding provisions of the Implementing Regulations to the European Patent Convention or, as the case may require, the Patent Co-operation Treaty have been complied with,

and, where a new deposit is made under paragraph 4 below, a further condition that the applicant or proprietor makes a new deposit in accordance with that paragraph.

(3) Where the information specified in subparagraph (2)(a)(ii) above is not contained in an application for a patent as filed, it shall be added to the application—

- (a) before the end of the period of 16 months after the declared priority date or, where there is no declared priority date, the date of filing of the application;
- (b) where, on a request made by the applicant, the comptroller publishes the application before the end of the period prescribed for the purposes of section 16(1), before the date of the request; or
- (c) where the comptroller sends notification to the applicant that, in accordance with subsection (4) of section 118, he has received a request by any person for information and inspection of documents under subsection (1) of that section, before the end of one month after his sending to the applicant notification of his receipt of the request,

whichever is the earliest.

(4) The giving of the information specified in subparagraph (2)(a)(ii) above shall constitute the unreserved and irrevocable consent of the applicant to the depositary institution with which a culture (including a deposit which is to be treated as having always been available by virtue of paragraph 4(2) below) is from time to time deposited making the culture available on receipt of the comptroller's certificate authorising the release to the person who is named therein as a person to whom the culture may be made available and who makes a valid request therefor to the institution.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(5) The specification of an application for a patent described in paragraph (1) above shall mention any international agreement under which the micro-organism concerned is deposited.

(6) In relation to an application for a patent filed before 7th January 1991, rule 17 of the Patents Rules 1982⁽⁹⁾ shall continue to have effect notwithstanding its revocation by rule 123(3) of the Patents Rules 1990⁽¹⁰⁾.

Availability of cultures

2.—(1) Save where paragraph 3 below has effect, a request that the comptroller certify a person as a person to whom a depositary institution may make available a sample of a micro-organism,—

- (a) before publication of the application for a patent, to a person who has made a request under section 118(1) in the circumstances mentioned in paragraph 1(3)(c) above; and
- (b) at any later time, to any person,

shall be made on Patents Form 8/77 (which shall be filed in duplicate) together, in the case of a micro-organism of which a culture is deposited under the Budapest Treaty with an international depositary authority, with the form provided for by the Regulations under that Treaty.

(2) The comptroller shall send copies of the forms lodged with him under subparagraph (1) above and of his certificate authorising the release of the sample—

- (a) to the applicant for, or proprietor of, the patent;
- (b) to the depositary institution; and
- (c) to the person making the request.

(3) A request under subparagraph (1) above shall comprise, on the part of the person to whom the request relates, undertakings for the benefit of the applicant for, or proprietor of, the patent—

- (a) not to make the culture, or any culture derived from it, available to any other person; and
- (b) not to use the culture, or any culture derived from it, otherwise than for experimental purposes relating to the subject matter of the invention,

and—

- (i) subject to (iii) below, both undertakings shall have effect during any period before the application for a patent has been withdrawn, has been taken to be withdrawn, has been treated as having been withdrawn, has been refused or is treated as having been refused (including any further period allowed under rule 100 or rule 110(1) or (4) but excluding, where an application is reinstated under either of those rules, the period before it is reinstated);
- (ii) if a patent is granted on the application, the undertaking set out in subparagraph (a) above shall also have effect during any period for which the patent is in force and during the period of six months referred to in section 25(4); and
- (iii) the undertaking set out in paragraph (b) shall not have effect after the date of publication in the Journal of a notice that the patent has been granted,

and, in this subparagraph, references to a culture derived from a deposited culture of a micro-organism are references to a culture so derived which exhibits those characteristics of the deposited culture essential for the performance of the invention.

(4) For the purpose of enabling any act specified in section 55 to be done in relation to the culture for the services of the Crown, the undertakings specified in subparagraph (3) above—

- (a) shall not be required from any government department or person authorised in writing by a government department for the purposes of this paragraph; and

⁽⁹⁾ S.I. 1982/717, to which there are no relevant amendments.

⁽¹⁰⁾ S.I. 1990/2384, to which there are no relevant amendments.

(b) shall not have effect in relation to any such person who has already given them.

(5) An undertaking given pursuant to subparagraph (3) above may be varied by way of derogation by agreement between the applicant or proprietor and the person by whom it is given.

(6) Where, in respect of a patent to which the undertaking set out in subparagraph 3(a) has effect,

(a) an entry is made in the register under section 46 to the effect that licences are to be available as of right; or

(b) a compulsory licence is granted under section 48,

that undertaking shall not have effect to the extent necessary for effect to be given to any such licence.

Availability of cultures to experts

3.—(1) Subject to paragraph (2A) below, where, before the preparations for publication under section 16 of an application for a patent have been completed, the applicant gives notice to the comptroller on Patents Form 8A/77 of his intention that a sample of the micro-organism should be made available only to an expert, the provisions of this paragraph shall have effect.

(2) The comptroller—

(a) shall publish with the application notice that the provisions of this paragraph have effect; and

(b) notwithstanding paragraph 2 above, shall not, until the patent is granted or the application has been withdrawn, has been taken to be withdrawn, has been treated as having been withdrawn, has been refused or is treated as having been refused, issue any certificate authorising release of a sample otherwise than under this paragraph.

(2A) Where, for the purpose set out in sub-paragraph (1) above, an applicant for an international application for a patent (UK) gives notice in writing to the International Bureau under rule 13bis.3 of the Regulations under the Patent Co-operation Treaty before the technical preparations for international publication of the application are complete of his intention that a sample of the micro-organism should be made available only to an expert, he shall be treated by the comptroller for the purposes of this paragraph as having complied with the conditions in sub-paragraph (1) above and sub-paragraph (2)(a) above shall not apply.

(3) Any person wishing to have a sample of the micro-organism made available (“the requester”)

(a) shall apply to the comptroller on Patents Form 8/77 (which shall be filed in duplicate together, in the case of a micro-organism of which a culture is deposited under the Budapest Treaty with an international depositary authority, with the form provided for by the Regulations under that Treaty) nominating the person (“the expert”) to whom he wishes the sample to be made available; and

(b) shall at the same time file undertakings by the expert as set out in sub-paragraph (3) of paragraph 2 above in accordance with the provisions of that paragraph.

(4) The comptroller shall send a copy of Patents Form 8/77 filed under sub-paragraph (3) above to the applicant for the patent and shall specify the period within which the applicant may object, in accordance with sub-paragraph (5) below, to a sample of the micro-organism being made available to the expert.

(5) Unless, within the period specified by the comptroller under sub-paragraph (4) above (or within such longer period as the comptroller may, on application made to him within that period, allow), the applicant for the patent sends notice in writing to the comptroller that he objects to a sample of the micro-organism being made available to the expert and gives his reasons for his

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

objection, the comptroller shall send a copy of any form lodged with him under sub-paragraph (3) (a) above and of his certificate authorising the release of the sample—

- (a) to the applicant for the patent,
- (b) to the depositary institution concerned,
- (c) to the requester, and
- (d) to the expert.

(6) Where, in accordance with sub-paragraph (5) above, the applicant for the patent sends notice to the comptroller of his objection to the issue of a certificate in favour of the expert, the comptroller—

- (a) shall decide, having regard to the knowledge, experience and technical qualifications of the expert and to any other factors he considers relevant, whether to issue his certificate in favour of the expert; and
- (b) if he decides to authorise the release of the sample to the expert, shall send to the persons referred to in sub-paragraph (5) above a copy of any form lodged with him under sub-paragraph (3)(a) above and of his certificate authorising the release of the sample to the expert.

(7) Before making a decision in accordance with sub-paragraph (6) above, the comptroller shall afford the applicant and the requester the opportunity of being heard.

(8) If the comptroller decides under sub-paragraph (6) above not to issue his certificate in favour of the expert, the requester may, by notice in writing to the comptroller and the applicant, nominate another person as the expert for the purposes of this paragraph; and the comptroller shall give such directions as he shall think fit with regard to the subsequent procedure.

(9) Nothing in this paragraph shall affect the rights under section 55 of any government department or any person authorised in writing by a government department.

New deposits

4.—(1) Where the depositary institution with which a deposit or a new deposit of a culture has been made under this Schedule—

- (a) notifies the applicant or proprietor that it—
 - (i) cannot satisfy a request made in accordance with paragraph 2(1) or 3(3) above, or
 - (ii) is not able lawfully, to satisfy such a request, for the culture to be made available;
- (b) ceases temporarily or permanently to carry out the functions of a depositary institution; or
- (c) ceases for any reason to conduct its activities as a depositary institution in an objective and impartial manner,

subject to subparagraph (3) below, the applicant or proprietor may, unless the culture has been transferred to another depositary institution which is able to make it available, make a new deposit of a culture of that micro-organism.

(2) For the purposes of paragraph 1 above and of this paragraph, the deposit shall be treated as always having been available if, within three months of the receipt of such notification or of the depositary institution ceasing to perform the functions of a depositary institution or to conduct its activities as such an institution in an objective and impartial manner, the applicant or proprietor,—

- (a) in a case where the deposit has not already been transferred, makes the new deposit;
- (b) furnishes to the depositary institution with which the new deposit is made a declaration that the culture so deposited is of the same micro-organism as was the culture originally deposited; and

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

- (c) requests amendment of the specification under section 19 or section 27, as the case may be, so as to indicate the accession number of the transferred or new deposit and, where applicable, the name of the depositary institution with which the deposit has been made.
- (3) The new deposit referred to in subparagraph (1) above—
 - (a) shall, save as provided in subparagraph (b) below, be made with the same depositary institution as was the original deposit; or
 - (b) in the cases referred to in subparagraphs (1)(a)(ii), (b) and (c) above, shall be made with another depositary institution which is able to satisfy the request.

- (d) additional provision is made for the voluntary amendment of the description, claims or drawings (rule 36);
