(3) The person referred to in sub-paragraph (e) of paragraph (1) above must be a registered pharmacist within the meaning of the Pharmacy Act 1954⁽³⁵⁾ or a registered medical practitioner within the meaning of the Medical Act 1983⁽³⁶⁾.

(4) Where the responsible person is the manufacturer or the person who first imports the cosmetic product into the Community he must possess appropriate experience or an appropriate level of professional qualification in accordance with the legislation and practice of the United Kingdom if it is the place of manufacture or first importation.

(5) Where the manufacturer manufactures a cosmetic product at two or more places within the Community, and one of those places is within the United Kingdom the responsible person may choose a single place of manufacture within the Community where the information referred to in paragraph (1) above will be kept available, provided that, if requested by a United Kingdom competent authority, he informs the said authority of the location at which the said information is to be kept.

(6) Where the information referred to in paragraph (1) above is to be kept accessible to a United Kingdom competent authority it must be in English or a language readily understood by the said authority.

9. Where the place of manufacture or initial importation into the Community of a type of cosmetic product is within the United Kingdom the responsible person shall notify a United Kingdom competent authority of the address of the place of manufacture or, as the case may be, initial importation into the Community of that type of cosmetic product before its first supply in the Community.

10.—(1) A United Kingdom competent authority may, where difficulties are encountered in providing prompt and appropriate medical treatment, require that any holder of appropriate and adequate information on substances used in cosmetic products make such information available to it, where the difficulties referred to may be overcome or eased by the provision of the said information.

(2) Where the information referred to in paragraph (1) above is made available the United Kingdom competent authority shall ensure that it is used solely for the purposes of the treatment referred to in paragraph (1) above.

11.—(1) Without prejudice to the provisions of regulations 3, 4, 8 and 10, a responsible person who for reasons of trade secrecy wishes not to include one or more cosmetic ingredients in the list

⁽³⁵⁾ 1954 c. 61.

⁽³⁶⁾ 1983 c. 54.

of cosmetic ingredients referred to in regulation 6(1) above shall submit a request to that effect to the competent authority.

(2) In this regulation, “applicant” means a responsible person who submits a request for confidentiality.

(3) The applicant shall ensure that—

(a) the request for confidentiality includes the particulars laid down in Part I of Schedule 7; and

(b) any amendments to the particulars provided for in sub-paragraph (a) above are communicated as quickly as possible to the competent authority and, in particular, that all changes to the names of cosmetic products containing the cosmetic ingredient in respect of which confidentiality is or has been sought, are communicated to the competent authority at least 15 days before those cosmetic products are supplied under their new name.

(4) Within four months of the receipt of a request for confidentiality in respect of which the requirements of paragraph (3)(a) above are satisfied the competent authority shall examine the request and inform the applicant in writing of its decision.

(5) If the competent authority decides to grant its approval to the applicant’s request it shall, in notifying the applicant of its decision, in accordance with paragraph (4) above, also notify him of the registration number which will replace the cosmetic ingredient in question in the list referred to in regulation 6(1), the said number to be allocated to the product in accordance with the procedure provided for in Part II of Schedule 7.

(6) If the competent authority decides to refuse to grant its approval to the applicant’s request it shall, in its notification of this refusal, include a statement of the reasons for refusal and a clear explanation of appeals procedures and their time limits.

(7) In exceptional cases the competent authority may inform the applicant in writing that a period of two months in addition to the four month period referred to in paragraph (4) above is required for the examination of the request.

(8) Subject to paragraphs (9), (10), (11) and (12) below, a decision granting confidentiality shall be valid for a period of five years.

(9) An applicant may, by submitting a reasoned request to the competent authority, request that the period of confidentiality referred to in paragraph (8) above be extended.

(10) In the event of a reasoned request being submitted in accordance with paragraph (9) above, the competent authority shall deal with the request in accordance with paragraphs (4), (5) and (6) above.

(11) Any extension of the period of confidentiality shall not exceed three years.

(12) The competent authority may withdraw its approval to an applicant’s request for confidentiality if it considers this appropriate taking into account—

(a) any amendments to the particulars provided for in paragraph (3)(a) above which are communicated to it in accordance with paragraph (3)(b) above; and

(b) any new information which comes to its attention which makes it imperative, particularly for compelling reasons of public health, for it to so act,

and in withdrawing its approval the competent authority shall comply with the provisions of paragraphs (4), (6), and (7) above.

Contravention of regulations 8, 9 and 10

12.—(1) Subject to paragraph (2) below, any contravention of a requirement of regulation 8, 9 or 10 shall be treated for all purposes as though it were a contravention of a requirement of safety regulations made under section 11 of the Consumer Protection Act 1987⁽³⁷⁾.

(2) The term of imprisonment to which a person guilty of an offence of contravening any requirement of regulation 8, 9 or 10 shall be liable on summary conviction shall not exceed three months.

Enforcement

13.—(1) No proceedings shall be brought and no enforcement action taken in respect of—

- (a) any failure to comply with regulations 3, 4, 6, 7, 8, 9, 10 and 11 in any case in which the cosmetic product is supplied for the purposes of exporting that product to any country which is not a member State; or
- (b) any failure to comply with regulation 6(5)(a) in any case in which the enforcement authority is satisfied that the person supplying the cosmetic product reasonably believes that it will not be used in the United Kingdom.

(2) No proceedings shall be brought and no enforcement action taken in respect of any failure to comply with regulations 4(4), 4(5), 6(1), 6(2)(h), 6(5)(a) (in so far as it relates only to regulation 6(2)(h)), 6(5)(b), 6(6), 6(7) or 6(9) to (12) in the case of—

- (a) any supply of a cosmetic product before 31st December 1997 by the manufacturer in or importer into the United Kingdom or, in relation to a cosmetic product manufactured or imported into the United Kingdom on behalf of another person, by that other person, except for a supply by retail in which case no proceedings shall be brought and no enforcement action taken in respect of a supply before 31st December 1998; or
- (b) any other supply of a cosmetic product before 31st December 1998, provided that, in the case of a failure to comply with regulation 6(6), the cosmetic product complies with the requirements of regulation 6(15) and, in the case of a failure to comply with regulation 6(7), the product complies with the requirements of regulation 6(16).

(3) For the purposes of this regulation, “enforcement action” means any action taken pursuant to or in connection with sections 13, 14, 16, 17, 28, 29, 30 or 31 of the Consumer Protection Act 1987.

14. Any test of goods purchased under section 28 or seized under section 29 of the Consumer Protection Act 1987 (which relate to enforcement) by or on behalf of an enforcement authority for the purpose of ascertaining whether the provisions of these Regulations have been contravened shall in all cases be carried out in accordance with the provisions of paragraphs 2 to 5 of Schedule 8 and any test for which a method is specified in paragraph 6 of Schedule 8 shall be carried out in accordance with that method.

SCHEDULE 1

Regulations 4(2) and 5(1)

LIST OF SUBSTANCES WHICH COSMETIC PRODUCTS MUST NOT CONTAIN

The alphabetical list set out in column 2 of this Schedule contains one or more of the names of each of the substances referred to in regulation 4(2); in certain cases a name is given of a group of substances, the names of particular examples of which are also given, and in such a case all substances comprised in the group are included, whether or not more specifically named.

The numbers given in columns 1, 3 and 4 are for information only. Those in column 3 are cross-references to other names listed for the same substances (except that where a name is that of a group of substances, the cross-references are to particular examples of that group, and any cross-reference in parenthesis is to the name of a group of substances within which the particular substance falls). Those in column 4 are cross-references to Annex II of the Directive, from which this Schedule is derived.

SCHEDULE 2

Regulations 4(2), 5(1) and 6(2)

LIST OF SUBSTANCES WHICH COSMETIC PRODUCTS
MUST NOT CONTAIN EXCEPT SUBJECT TO RESTRICTIONS

In this Schedule, the matters specified in columns 3, 4, 5 and 6 which apply to a particular substance are those set out to the right of its name as mentioned in column 2; and the matters specified in columns 4, 5 and 6 which apply in any particular case are those set out to the right of the matter specified in column 3 which applies in that case. The substance may not be used except for the purposes or contained other than in the types of product specified in column 3. The concentration of the substance in a product may not exceed the limit specified in column 4: where the names of two or more substances are mentioned in a single item as set out in column 2 and a product contains more than one of those substances, the limit specified in column 4 is the limit for all of those substances taken together; and where a product is intended to be mixed with another product in specified proportions before use, the level of concentration shall be calculated by reference to the mixture. Other requirements are specified in column 5. In column 4 of this Schedule, the percentage concentration is measured by reference to mass (m/m) unless a contrary intention appears.

Names which appear in square brackets in column 2 are the International Nomenclature Cosmetic Ingredient names of the substances in question given in the inventory of ingredients employed in cosmetic products drawn up in accordance with the provisions of the Directive and contained in Commission Decision [96/335/EC](#)(40).

Combination Rules

A. Where a cosmetic product contains two or more substances to which this Combination Rule applies, the concentration in the product of each of those substances shall be such that the sum of the relevant quotients for those substances (as defined in Rule C below) shall not exceed 1.

B. Where a cosmetic product contains the substances to which this Combination Rule applies, the concentration in the product of each of those substances shall be such that the sum of the relevant quotients for those substances (as defined in Rule C below) shall not exceed 2; but the concentration of each substance shall not in any event exceed the limit specified for the substance in respect of the product in column 4 above.

C. The relevant quotient for each substance is the actual concentration of the substance in the product divided by the maximum concentration specified for the substance in respect of the product in Column 4 of this Schedule.

SCHEDULE 3

Regulations 4(2) and 6(9)

LIST OF COLOURING AGENTS WHICH COSMETIC PRODUCTS MUST NOT CONTAIN EXCEPT SUBJECT TO RESTRICTIONS AND EXCEPT COLOURING AGENTS INTENDED SOLELY TO COLOUR HAIR

In this Schedule the colouring agents referred to in regulation 4(2)(c) are—

- (i) those identified in column 1 either by name or by colour index number (the colour index numbers being those specified in the third edition of The Colour Index published in 1971 by the Society of Dyers and Colourists);
- (ii) lakes or salts of these colouring agents which do not use substances prohibited under Schedule 1.

In the case of colouring agents identified by the addition of (*) to the name or colour index number, the insoluble barium, strontium and zirconium lakes, salts and pigments of these colouring agents shall also be permitted. They must pass the test for insolubility which will be determined by the procedure laid down in Article 8 of the Directive.

Colouring agents whose number is preceded by the letter ‘E’ in accordance with the EEC Directive of 23 October 1962 on the approximation of the rules of member States concerning foodstuffs and

Field of application

In column 3 of this Schedule, the entry “X” in a sub-column means that the colouring agent must not be used other than as follows—

Sub-column 1 = Colouring agents allowed in all cosmetic products;

Sub-column 2 = Colouring agents allowed in all cosmetic products except those intended to be applied in the vicinity of the eyes, in particular eye make-up and eye make-up remover;

Sub-column 3 = Colouring agents allowed exclusively in cosmetic products except cosmetic products intended to come into contact with the mucous membranes;

Sub-column 4 = Colouring agents allowed exclusively in cosmetic products intended to come into contact only briefly with the skin.

Field of application

In column 3 of this Schedule, the entry “X” in a sub-column means that the colouring agent must not be used other than as follows—

Sub-column 1 = Colouring agents allowed in all cosmetic products;

Sub-column 2 = Colouring agents allowed in all cosmetic products except those intended to be applied in the vicinity of the eyes, in particular eye make-up and eye make-up remover;

Sub-column 3 = Colouring agents allowed exclusively in cosmetic products intended not to come into contact with the mucous membranes;

Sub-column 4 = Colouring agents allowed exclusively in cosmetic products intended to come into contact only briefly with the skin.

SCHEDULE 4

Regulations 4(2) and 6(2)

**LIST OF PRESERVATIVES WHICH COSMETIC PRODUCTS
MUST NOT CONTAIN EXCEPT SUBJECT TO RESTRICTIONS**

In this Schedule, the matters specified in columns 3, 4, 5 and 6 which apply to a particular substance are those set out to the right of its name as mentioned in column 2; and the matters specified in columns 4, 5 and 6 which apply in any particular case are those set out to the right of the matter specified in column 3 which applies in that case. The substance may not be used or contained other than in the types of product specified in column 3. The concentration of the substance, when it is used as a preservative, in a product may not exceed the limit set out in column 4. Where a product is intended to be mixed with another product in specified proportions before use, the level of concentration shall be calculated by reference to the mixture. Other requirements are specified in column 5.

In column 4 of this Schedule, “A” indicates that the concentration of the substance in a product may exceed the limit set out in that column provided that—

- (a) the presence of any excess of the substance in a product over the concentration so set out is not for the primary purpose of inhibiting the development of micro-organisms; and
- (b) the purpose for which any such excess is present in the product is apparent from the labelling of the product.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

In this Schedule—

“salts” means salts of the cations sodium, potassium, calcium, magnesium, ammonium and ethanolamines and of the anions chloride, bromide, sulphate and acetate;

“esters” means esters of methyl, ethyl, propyl, isopropyl, butyl, isobutyl and phenyl.

In column 4 of this Schedule, the percentage concentration is measured by reference to mass (m/m) unless a contrary intention appears.

All preservative substances containing formaldehyde or any substances named in this Schedule which release formaldehyde must be labelled with the warning “contains formaldehyde” when the concentration of formaldehyde in the final product exceeds 0.05 per cent.

Names which appear in square brackets in column 2 of this Schedule are the International Nomenclature Cosmetic Ingredient names of the substances in question given in the inventory of ingredients employed in cosmetic products drawn up in accordance with the provisions of the Directive and contained in Commission Decision 96/335/EC(48).

(11) they require cosmetic products to be labelled with information about their function, unless this is clear from their presentation (regulation 6(2)(h));

(12) they require cosmetic products to be labelled with details of their ingredients, identified by their common names as provided for in the common ingredients nomenclature (an inventory of ingredients compiled by the Commission and contained in Commission Decision 96/335/EC (O.J.
